SC 1280

Digital Bath Thermometer SC 1280

The SC 1280 is a bath thermometer suitable for safe bathing. Use this thermometer to check whether the bath water is between 36.5 °C and 38 °C. These are the water temperature limits that is safe for the human body.

With the precise and reliable baby thermometer you can be sure that the temperature in the bath is optimal. A temperature alarm indicates when the pool water is above 39°C or below 32°C.

The large, easy-to-read LCD display shows the current temperature in degrees Celsius. The automatic switch-off function saves battery life and prevents frequent battery changes.

The tactile design with the frog motif convinces with high safety standards, so that it also serves as a safe toy during baby's bath time.
